- The signature attests that the agency has completed the STD, 399 according to the instructions in SAM sections 6600-6680, and understands the impacts of the proposed rulemaking. State boards, offices, or departments not under an Agency Secretary must have the form signed by the highest ranking official in the organization.
- Finance approval and signature is required when SAM sections 6600-6670 require completion of the Fiscal impact Statement in the STD, 399.
 - * Unknown fiscal impact on State spending for architectural and engineering services, and construction project delivery. Actual impact will depend on how the State uses the contracting flexibility granted by these regulations. It is intent in enacting these regulations to help deliver water safely, cost effectively and on time; as required by a voter approved Initiative Measure (Proposition 35) since November 2000. Better value to taxpayers is achieved in various ways, which could be in the form of financial savings and/or speedy completion of backlogged projects.
